

Instructions bracket mounting

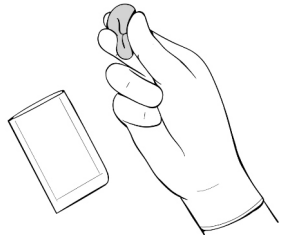

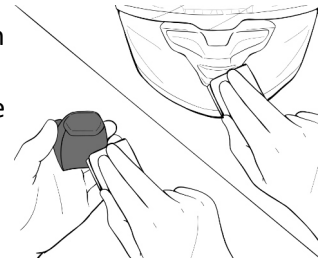

1. before mounting should check the fit on the helmet and to the Quickclip. If something is not right, this is the last moment to check everything. Mounts that have been in contact with the adhesive are excluded from withdrawal.

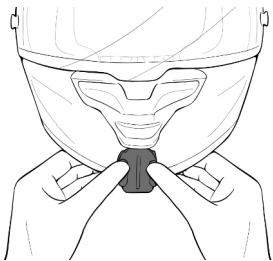

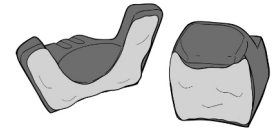

Wash hands or use disposable gloves (powder free).

3. Clean the adhesive surfaces on the holder and helmet. We recommend isopropanol or brake cleaner for this purpose. The surfaces should be dust-free, grease-free and dry before using the adhesive.

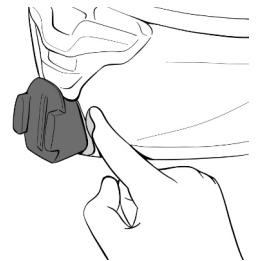

4. Open the adhesive and activate by kneading. The adhesive stains a little, but this can be easily removed with a piece of kitchen roll and/or hand washing paste.

5. Apply adhesive to the adhesive surface on the bracket. Only where the bracket touches the helmet.

6. Press the holder evenly against the helmet with light pressure and align the holder. The adhesive should be processed within 30 minutes.

7. Glue protruding from the edges can be removed with a popsicle stick, a toothpick, a piece of kitchen roll or by hand.

48 hours

8. The adhesive should cure for at least 48 hours. We recommend storing on a helmet cushion so that the chin part is facing up.

Customer Youtube tutorial in german. (english subtitle)

The adhesive cures ~24 hrs 3 mm / ~48 hrs 5.5 mm / ~72 hrs 8 mm at 21°C.
Best processed at room temperature (21°C).

Please check if everything is tight before the first ride. The user is responsible for his equipment and the bonding. If you have any questions, you can find many answers on www.mibike.de/faq under "FAQ & Documents" you will find many answers. If there are still open questions, just write an email to info@mibike.de, get in touch via the contact form (website) or via WhatsApp!

More information about the adhesive is available in Sugru's TDS (Technical Data Sheet). This can also be found on the website at FAQ www.MiBike.de/faq.

Unfortunately, we can not guarantee the bonding. There are too many factors that are out of our control. For this we ask for your understanding. If you have any questions, we will be happy to help.

About any feedback, a positive review or even a Like on Facebook / Instagram we would be very happy. Have fun vlogging!

Notice and waiver

By purchasing and using this product, you waive any relevant legal claims as well as claims for damages. Therefore, please ensure that you have read and understood the following terms and conditions before using the product. By using the product, you agree to this agreement and waive all claims. If you do not agree to all the terms of this agreement, return the product for a full refund.

1. You must fully understand and accept all risks (including those arising from improper conduct by you or others) that may occur while using the product.
2. You must ensure that your state of health permits the use of the product and that you are in sufficiently good physical condition to use equipment that can be used with the product. Furthermore, you must ensure that the product does not limit your abilities and that you can use it safely.
3. You must be of legal age and able to take responsibility for the use of the product.
4. You must read and understand the following warnings and instructions:
 - We advise you to obtain all relevant information regarding weather conditions, traffic conditions and road conditions in advance and be prepared accordingly before using the product.
 - If you use the product while driving a vehicle such as a motorbike, you must comply with the vehicle manufacturer's safety instructions.
 - Use the product with caution.
5. You must read and fully understand all terms and conditions regarding legal rights and warnings associated with the use of the product. In addition, by using the product, you agree to all conditions regarding the waiver of rights.
6. All risks arising from the operation of the product are entirely dependent on the user, regardless of the use of the product by the original purchaser.
7. The use of the product may violate test standards, local or national regulations. Also, be aware that the proper and safe use of the product is entirely your responsibility. If you do not return the product after purchase, you waive all rights to liability, claims, as well as claims for reimbursement of costs (including attorney's fees). MiBike - Mike Becker is therefore not liable for any injury, death, or loss of or damage to any means of transportation, property, or chattels belonging to you or any third party occurring during the use of the product.
